STIMULAR FOUNDATION

DE WERKPLAATS VOOR DUURZAAM ONDERNEMEN

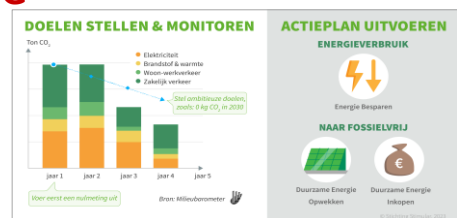

STIMULAR FOUNDATION

- Support organizations implementing sustainability in a practical way
- 20 consultants (1990)
 - Research
 - Tools (Envirometer, Milieubarometer)
 - Free information
 - Consultancy

CONSULTANCY, TRAINING & COACHING

- CO₂-footprint and Climate Neutral
- Support with certificates and questionnaires
 - CO₂-Performanceladder, 14001, 14064, 26000. SBTi, CDP, Ecovadis
- Lifecycle Analysis (LCA), Chain analysis
- Sustainability reporting, CSRD
- Development and publication of the MTZ-standard (Healthcare)

QUESTION

- Which environmental impact is larger in your household?
 - Energy usage
 - Mobility
 - ?

QUESTION

- Which environmental impact is largest in your company?
 - Electricity usage
 - Gas
 - Waste
 - Traffic (employees)
 - Transport (freight)

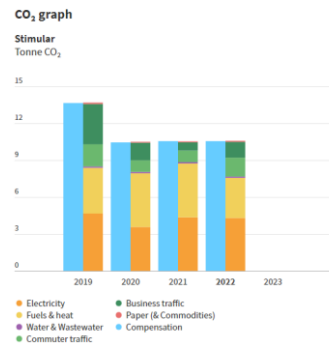

• Electricity 34%	• Hazardous waste 0,35%
• Fuels & heat 14%	• Commuter traffic 30%
• Water & Wastewater 0,57%	• Business traffic 16%
• Emissions 2,2%	• Office Paper 0,49%
• Commercial waste 2,6%

MONITORING AND REPORTING WITH THE ENVIROMETER

- Envirometer (Milieubarometer) tool
 - 1999
 - 3.000 companies
 - Online Demo
- www.envirometer.nl
 - Switch Dutch / English

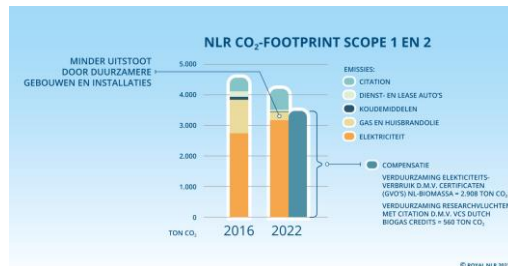

ENVIROMETER

User Friendly
 Visualizes environmental data
 Environmental impact & CO₂-footprint
 Optional CSR targets
 Database of measures
 Quick report generator
 Sector specific
 Low in costs

CASE NLR

- Stimular assists NLR in calculating their CO₂-footprint with the envirometer
 - Scope 1, 2 and business travel from scope 3 (yearly)
 - Scope 3, all 15 aspects (occasionally)
- Report according to the ISO 14064 standard,
 - Internal communication (target setting and actions taken)
 - Communication with stakeholders

- Drs. Henk van Bremen

JOINT NAG PILOT

Duration approx. 3 – 4 months

1. Starting workshop on footprinting (Rotterdam or Delft)
2. Work with Envirometer (individual data collection on scope 1, 2 and scope 3 partially),
 - coaching by Stimular (online)
3. Analyze results individually
 - Data validation
 - Interpretation of results
 - Help with setting performance indicators, targets
4. 2nd Workshop: Reporting to customers (SBTi, CSR, CO₂-performanceladder) and reducing your footprint (targets, actions)

JOINT NAG PILOT

- Workshops: mix between expert knowledge and exchanging experiences between participants
- Investment:
 - Time (± 8-12 hours for attending workshops and analyzing results)
 - Time to collect CO₂-data work with Envirometer
 - € 750-1.000,- (depending on amount of participants, including Envirometer subscription)
- Results
 - CO₂-Footprint report scope 1&2 and part of scope 3 (validated by Stimular)
 - Set of performance indicators, first target...
 - (Shared) knowledge and experiences on reporting and reduction
